Company Profile

Established 1967: decades of activity and field experience
OVERVIEW

SICORT places itself among world leaders in the field of heat treatment equipment manufacturing and related accessories.

SICORT was founded long ago in 1967, created by farsighted Eng. Orzi and, in the following years, Maurizio Mora joined its employee team. When Eng. Orzi decided it was time to retire, Maurizio Mora took the helm of SICORT. The Company remained on top of technology levels ever since, thanks to an ongoing dedication and commitment to research and innovation.

GLOBAL PRESENCE

Today, SICORT covers with Dealers and Sales Representatives the following areas:

- Europe
- Latin America
- Middle East
- North Africa
- Far East

PRODUCTS

SICORT offers a more than complete range of heat treatment equipment starting from the small, yet “tough”, 50 kVA ETTS 50, up to the big and powerful 100 kVA SICORTHERM ETTS/100-R12C.

If all of it is not enough, we can study dedicated and customized solutions together with our Customers. We also supply a wide range of accessories which will enable You to work at the top of Your potential.

We manufacture everything in Italy, thanks also to a direct collaboration with partner Companies, among which, ECHO THERM S.r.l.

All of our equipment is CE Certified, a guarantee of trials and testing performed by external certifying institutions, ensuring full compliance with European applicable laws.

2008: THE TURNING POINT

In 2008, Maurizio Mora and Stefano Bommezzadri incorporated SICORT-HTS S.r.l.

In order to keep pace with a rapidly changing world, with ever growing demands and priorities, SICORT-HTS is dedicated to both increasingly sought-after Rental Services and to international markets, especially in the Middle East.

Besides, Stefano Bommezzadri brings his long and precious experience in the Non-Destructive Testing field and heat treatment services, which are normally carried out nowadays by SICORT-HTS in cooperation with partner companies.

Therefore, the main target of SICORT/SICORT-HTS group is constant innovation, both in new equipment manufacturing and in services dedicated to Oil & Gas, Petrochemical and Boiler-building companies, as well as Power Plants, Shipyards, Off-Shore Drilling, etc., supplying them with all of our experience in heat treatment and NDT.
COMPANY STRUCTURE

Maurizio Mora
- Administration
- Equipment Production
- Internal Staff
- Safety Procedures

Stefano Bommezzadri
- Technical Management
- External Staff
- QA/QC
OUR SERVICES/PRODUCTS ARE MAINLY DEDICATED TO THE FOLLOWING:

- Power Plants
- Chemical & Petrochemical Industries
- Civilian and Military Shipyards
- Oil & Gas
- Off-shore drilling
- Boiler-building

LIST OF ACTIVITIES PERFORMED BY SICORT-HTS:

- Post-Weld Heat Treatment oven/furnace building (gas, electric and oil-fed)
- Post-Weld Heat Treatments with:
  - Ceramic heaters
  - Induction
  - Hot Air (with burners)
  - Intra/extra furnace
- Non-Destructive Testing
- Hardness gauging
- PWHT equipment rental services
- Outsourcing
**EQUIPMENT AVAILABLE FOR RENTALS:**

Sicortherm 100 BT/6 (low tension unit)
Sicortherm ETTS 100 (low tension unit)
Sicortherm ETTS 70 (low tension unit)
Sicortherm ETTS 50 (low tension unit)
120TL6 (line tension unit)
OUR ITALIAN CUSTOMERS:
